

Graduate Certificate of Nursing Practice (Intensive Care)

ABOUT THE PROGRAM

Austin Health is offering registered nurses who have a keen interest in Intensive Care nursing the opportunity to undertake a Graduate Certificate of Nursing Practice (Intensive Care) in conjunction with our partner, Melbourne University. Students complete coursework and clinical assessments in a structured program with our dedicated education team. The Intensive Care Unit at Austin Health is well known for its teaching and research. The unit specialises in cardiac and thoracic surgery, acute hepatic failure, liver transplantation, spinal injuries, and caring for patients with acute renal failure. Our well-established clinical program allows you to gain experience in all of these specialties.

LEARNING OBJECTIVES

Students will develop advanced clinical skills to enable the care of critically ill patients in ICU.

Students will develop advanced nursing knowledge in the specialty of Intensive Care.

WHO SHOULD APPLY

Registered nurses with 2 years of acute experience, who are motivated to deliver outstanding patient care in a dynamic environment.

Previous ICU experience desired but not essential.

Registration with Nursing and Midwifery Board of Australia (NMBA).
