

AUSTIN HEALTH DISABILITY ACTION PLAN PROGRESS REPORT JAN - JUNE 2025

Inclusive

Seven current Austin Health staff have identified their disability and adjustment needs via our new recruitment software

A Disability Awareness training package for staff has been approved for implementation

We now have posters to support patients with vision impairment

Next 6 months

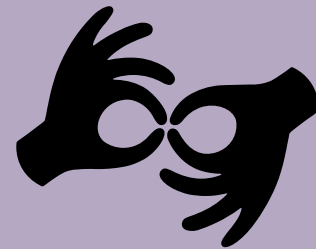

We will develop and promote an employment network for staff who identify as having a disability

We will promote and encourage staff to update their profile on our new recruitment software

Accessible

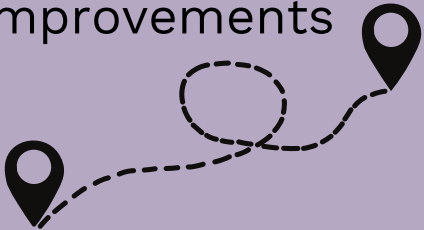

Auslan communication packs for wards have been developed

An accessible bathroom with adult-sized change table has been approved

A wayfinding workgroup has been established to identify and plan for improvements

Next 6 months

We will engage a user experience design agency to manage the design phase of the website platform redesign and upgrade

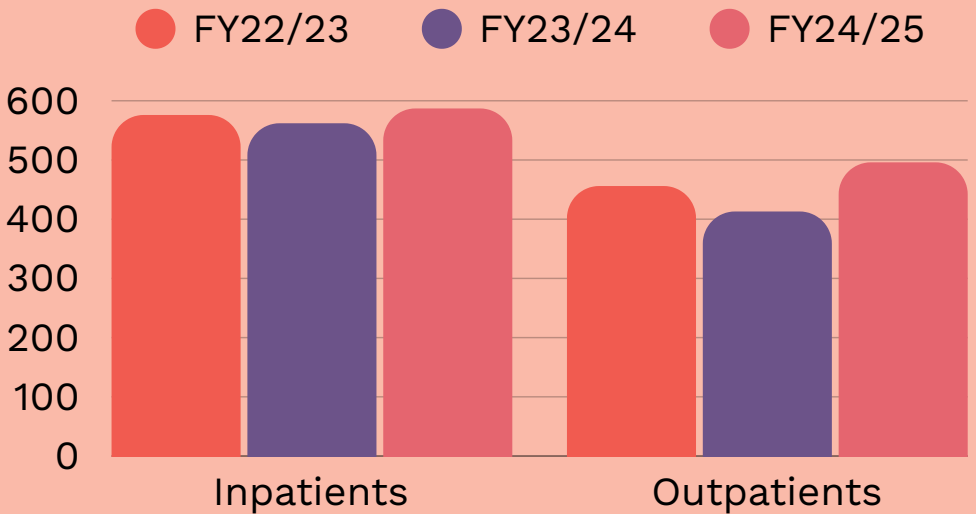

Effective

Patient's responses to the disability identifier question set can now be included in a patient's Multidisciplinary Discharge Summary (MDDS) and external referrals

The NDIS Quality and Safeguard audit has been successfully completed

DLO Program Referrals

Next 6 months

A patient information sheet to support patients transitioning to adult services will be published and a new process will be trialed to set up young adults for success in adult care
